## REPLY COMMENTS OF EDUCATIONSUPERHIGHWAY

EducationSuperHighway respectfully submits these reply comments in response to the Notice of Proposed Rulemaking in the above referenced proceeding.<sup>1</sup>

### CLARIFICATION OF INITIAL COMMENTS

EducationSuperHighway submitted initial comments on the NPRM on October 31, 2019.<sup>2</sup> In those comments, we recommended that the first option on the revised Form 470 Category 1 drop-down menu should be “Internet Service (With or Without Transport),” which would be “fully technology neutral, including Leased Lit Fiber and non-fiber options.” We also noted that, when selecting this option, applicants should be allowed to provide a preference for a fiber optic based solution. A key piece of information missing from this original argument is the percent of applicants that are currently receiving internet or WAN services via fiber transport: 99% of public schools nationwide are on scalable internet connections, with the vast majority of schools connected to the internet via fiber.<sup>3</sup> Thus, applicants currently on fiber connections should be able to add a preference for fiber proposals within the Form 470. In terms of how applicants will denote this preference, we envision a secondary drop-down, similar to current drop-down mechanics in the Category 2 section of the Form 470.

### ADDITIONAL COMMENTS

We wish to commend the State E-rate Coordinators’ Association (SECA) for their very thorough and thoughtful comments on the NPRM.<sup>4</sup> We particularly appreciate the addition of the

word “Estimated” on the description of all fields involving specific bandwidth speeds in the Step 4 section of the Appendices.<sup>5</sup>

## **CONCLUSION**

EducationSuperHighway applauds the intent of this NPRM to simplify the 470 filing process for applicants and appreciates the opportunity to comment on this Proceeding.

Respectfully submitted,

Josh Chisom
